The imperiant discovery of the CARBOLIC ACID as a CLEANSING, PURIFYING, and HELLING Agent is one of the most remarkable results of modern medical research. During the late civil war is was extensively used in the Riospitals, and was found to be not only a thorough disinfectuat, but also the most work derful and speedy HEALIN-REMEDY ever known. wit is now presented in scientific combination with other southing and heating agencies, in the form of a SALVE; and, having been alrendy used in numberless cases with most satisfactory and benefficial results, we have no bestlic as the most certain, rapid. and effectual remedy for ul Sores and Ulcers, no matter of how long standing, for Burns, Cuts, Wounds, and every ARRASION of SEEN or FLESS, and for Skin diseases penerally.
